# Release notes

# MWell 21.1.1.32450

30-11-2020

## *Fixed bugs*

| | |
|---|---|
| MGEOLIB-931 | Made sure that when there is unsaved data, the user is always prompted to save these changes (even when Cancel was pressed when first prompted to save the data). |
| MGEOLIB-908 | The warning message displayed when opening old files is corrected. It no longer assumes that an old file was made with version 17.1. |
| MGEOLIB-921 | The send button in the support dialogue does now work for Windows 10. |
| MGEOLIB-941 | The "Send to" option in the file menu has been removed. |
| DGS-672, DGS-673, DGS-674 | Small corrections to user manuals (such as updates for hyperlinks and addresses). |
| MINSTALL-901 | Installer used wrong folder when reinstalling the examples. |
| MGEOLIB-978 | Message that was given when common files is not installed, was not correct. |
| MGEOLIB-961, MGEOLIB-976, MGEOLIB-967 | Small layout corrections in UI. |
| MGEOLIB-1000 | When the application was started without common files: incorrect version number of the common files was given in the error message and an unexpected pop-up message was displayed when continuing using the application in demo mode. |
| MGEOLIB-987 | In the *Program Options* window, *License* tab, the type of license was not always correct when the license borrowing has expired, allowing to perform a calculation even if no license was present. |
| MGEOLIB-979, MGEOLIB-985 | Incorrect error message and cursor remained a waiting cursor when trying to borrow a license when it was not possible (i.e. if there is no connection with the license server). |
| MGEOLIB-971 | In the *Program Options* window, *License* tab, the state of the buttons and the license text was not always as expected. |

## Improvements

| | |
|---|---|
| MWE-472, MGEOLIB-951, MGEOLIB-957, MGEOLIB-960, MGEOLIB-963, MGEOLIB-969 | License structure has been changed: within a application there are no longer modules, all released features are now available for all users. The new License tab is adapted to the new licensing structure (including borrowing). |
| MWE-474 | The User Manual is updated for removing modules. |
| MGEOLIB-938 | The input file is now always automatically saved when starting a calculation. |
| MGEOLIB-921, MGEOLIB-925 | The send button in the support dialog will now always be available to the user. When no mail client is installed, windows itself will instruct the user to install it. |
| MGEOLIB-923 | The license system is updated and now supports borrowing. |
| MINSTALL-897 | All installers now give a correct error message when the common files are missing or too old. |
