

Release notes

MSeep 18.1.1.1

17-10-2017

Limitations

MGEOLIB-854 Input files created with versions older than MSeep 14.1 are no longer supported. When you want to read an old file you can use version 16.1 and save it with a different name.

Fixed bugs

MSE-287 Fixed reading geometry from files of other D-Serie applications (e.g. D-Geo Stability)

Improvements

MGEOLIB-890 In the report, besides the program version that created the report, also the version that made the calculation is displayed.
