

# North American Deltares Software Days

**Edition 2019**

**11-14 March  
Baton Rouge  
Louisiana  
USA**

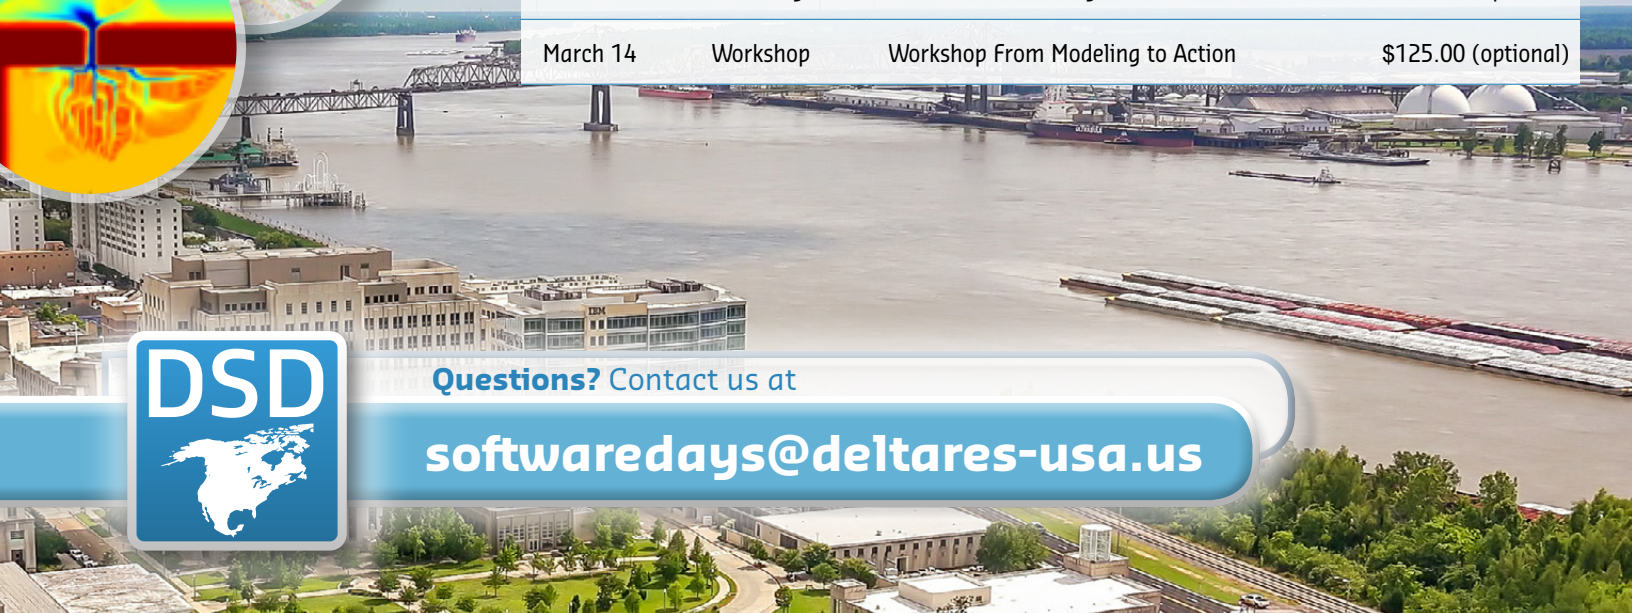

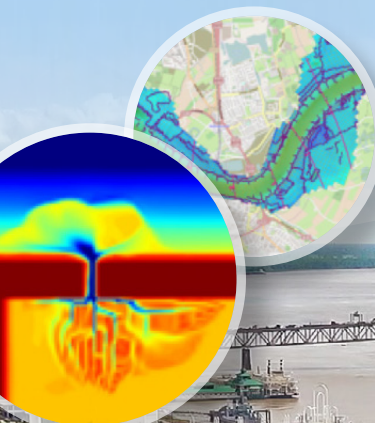

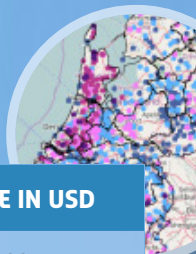

Join us at the North American Deltares Software Days – Edition 2019 to learn about the newest updates to the Deltares open source modelling software for hydrodynamics, morphology, water quality & ecology, for rivers, lakes, and ocean, coastal, estuarine, urban and industrial environments.

Come and learn about developments in the Delft-FEWS software and the ways in which it is being used. Meet with Delft- FEWS developers and join a training course or one of our break-out sessions.

We offer a 4-day program filled with interactive sessions, courses and break-out sessions.
