

## Online Software Horizon

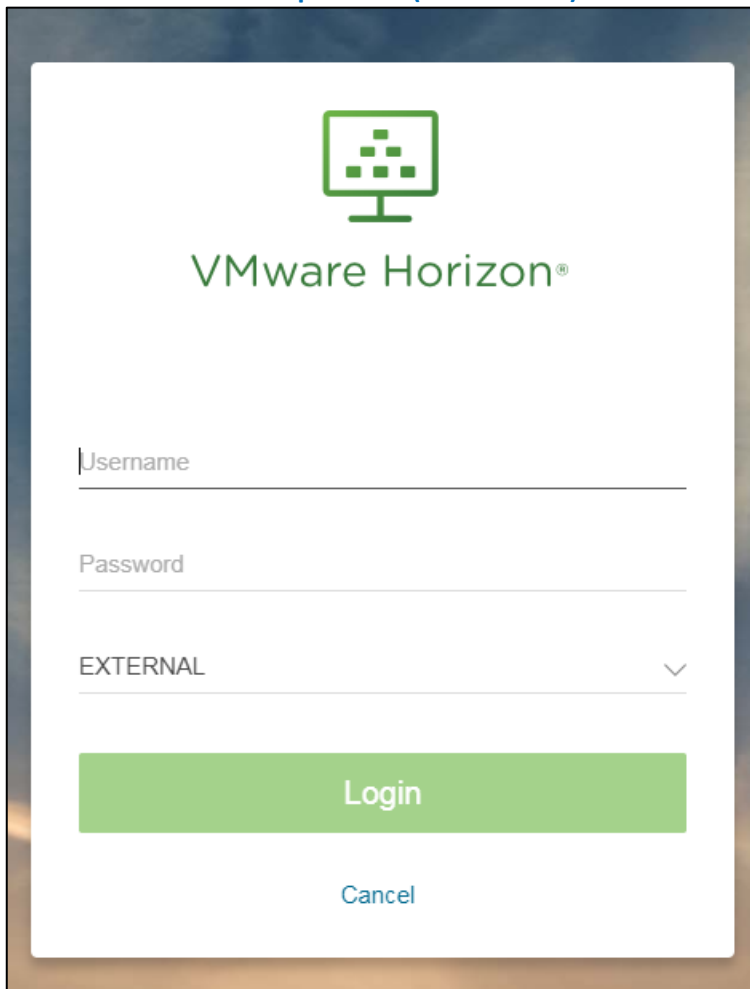

[Online Software](#) is a Deltares Software-as-a-Service platform that allows direct access to the Geotechnical software of Deltares over the internet.

This document contains general information about the Online Software platform. A more extensive manual that includes a step-by-step setup guide, tips and Frequently Asked Questions is available from [our website](#).

The Online Software platform offers both a [web version](#) and a [client version](#).

- **Web version:**  
Can be used from any modern browser and requires no installation.
- **Client version:**  
With the client version you can access files from your pc, and you can use your local printers. It requires the **VMware Horizon Client** to be installed on your pc.

### Login screen of the Online Software platform (web version)

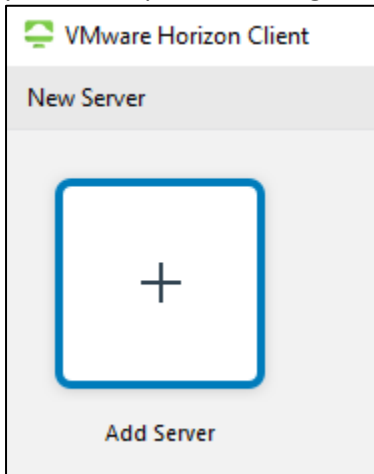

The screenshot shows the VMware Horizon login interface. At the top center is the VMware Horizon logo, which consists of a green monitor icon with a grid of dots above the text "VMware Horizon®". Below the logo are three input fields: "Username", "Password", and a dropdown menu with "EXTERNAL" selected. At the bottom of the form are two buttons: a green "Login" button and a blue "Cancel" button.

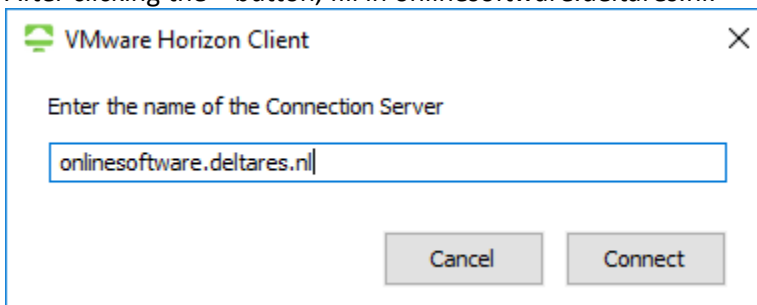

# Deltares systems

## Login of the Online Software platform (client version)

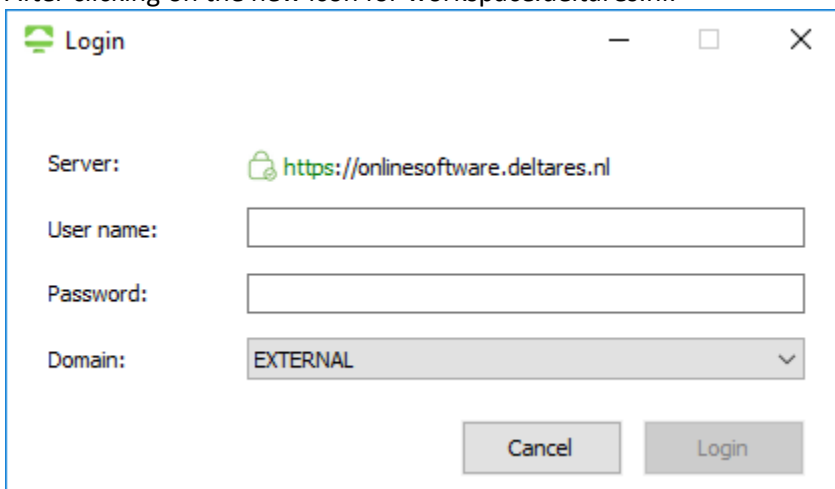

1. Download and install the client version from the download link at the bottom of the [onlinesoftware.deltares.nl](https://onlinesoftware.deltares.nl) website.
2. After installing and starting the VMware Horizon client from the shortcut on your desktop the following screen is shown:

3. After clicking the + button, fill in onlinesoftware.deltares.nl:

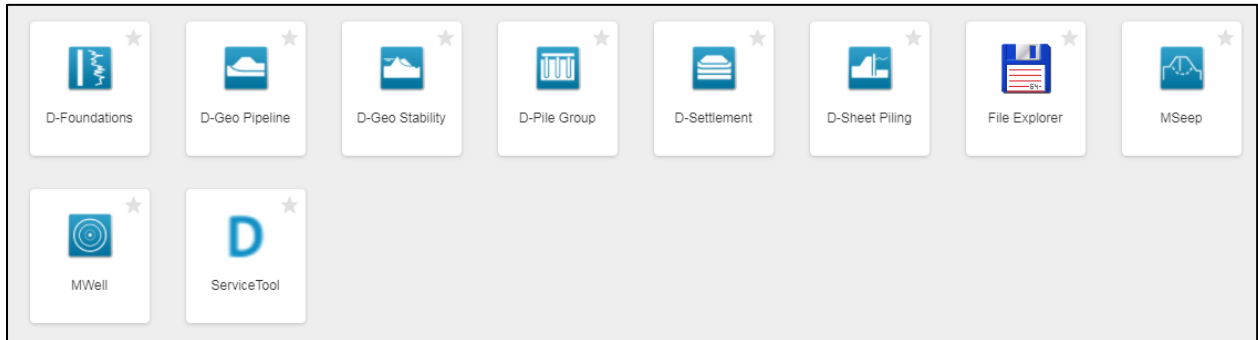

4. After clicking on the new icon for workspace.deltares.nl:

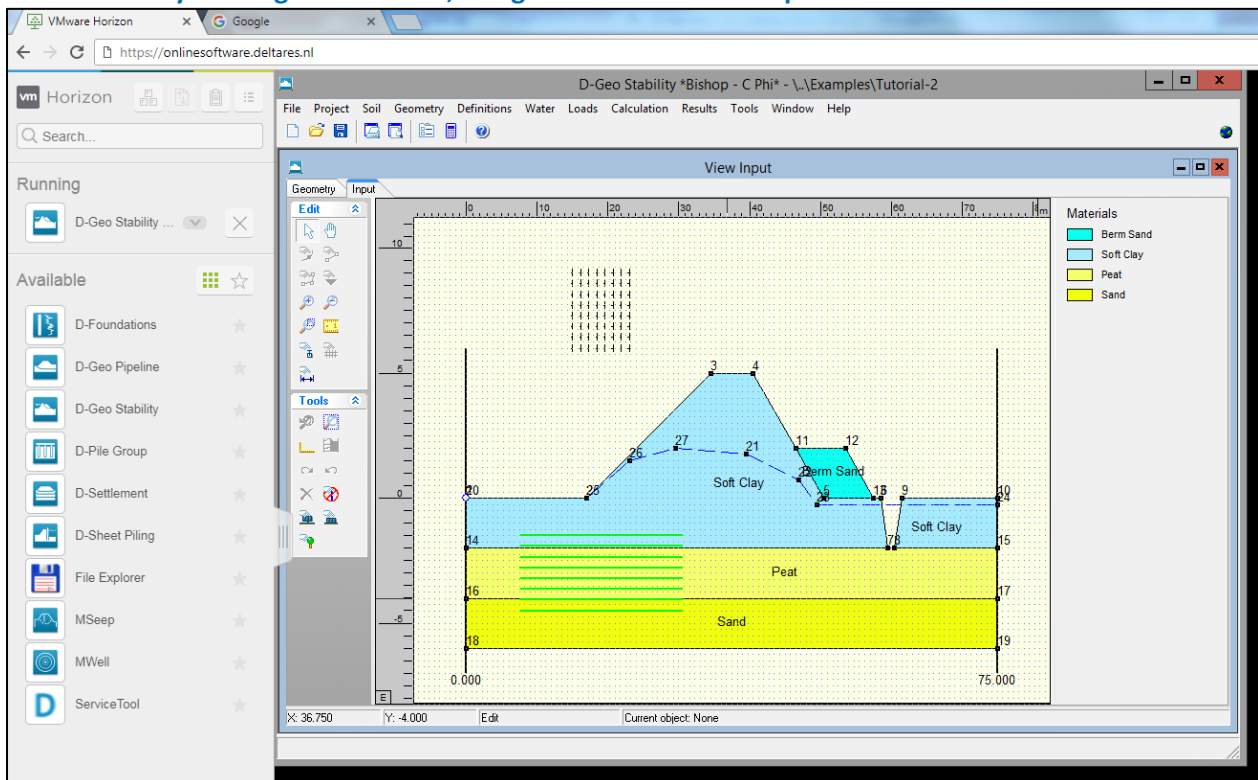

5. Fill in your username and password here.  
Make sure to set the domain to "EXTERNAL".

## Your Online Software desktop

More information, including how to access your local files, is available in the manual on [our website](#).

## D-Geo Stability running in a browser, using the Online Software platform
